

Pull-Push Saw ERIKA 85 Ec with extension and router table and 2 supporting rails, 1000 mm

ref.no.: 971613

EAN: 4032689166544

- ▶ Extension and router table in delivery scope
- ▶ 2 support/mounting rails 1000 mm in delivery scope
- ▶ boxed

Technical data

Cutting height	-1 - 85 mm
Cutting height at 45°	-1 - 60 mm
Tilt range	-3 bis 48 °
Cutting length	430 mm
Table top dimensions	525 x 915 mm
Working height without stand	415 mm
Working height with stand	890 mm
Nominal No. of strokes – no load	1900 - 3800 1/min
Nominal power input	2500 W
Weight	34,5 kg
Universal motor	230 V / 50 Hz

Delivery specification

- 1 Extraction set with 2 connectors; Ref. No. 093670
- 1 TCT saw blade 250 x 2.8 x 30 mm (9 13/16 in.), AT, 40 teeth; Ref. No. 092465
- 1 Extension kit with wheels; Ref. No. 202889
- 1 MFA multi-purpose fence with angle locking; Ref. No. 203400

- 1 Push stick; Ref. No. 034901
- 1 Allen key 6 mm; Ref. No. 093081
- 1 Fold-away support /Quickstand\\
- 1 Mains cable 4 m (13.1 ft); Ref. No. 087847

Examples for usage

Thanks to the great cutting height and cutting length, the ERIKA 85 Ec ...

The multi-purpose guide fence allows two miter cuts without changing.

... is ideally suited even for cutting solid timber and for carpentry applications.

... or adjusting the fence. The result: perfect 90° joints.

Applications

- ▶ Cross and rip cuts
- ▶ Circular saw bench functionality
- ▶ Bevel cuts up to 48°
- ▶ Compatible materials include solid wood, board materials, parquet and laminate flooring, aluminum profiles and plastics

Advantages

- ▶ New type of suction channel revolutionises extraction – for less dust when working.
- ▶ Lightest pull-push saw in its class – for quick and easy transportation.
- ▶ Adjustable speed – for individual processing of wood, plastics or aluminum profiles.
- ▶ With voltage loss switch for protection against uncontrolled reconnection after a power interruption.

Description

The unique suction channel concentrates the sawdust and extracts it to the rear. Thanks to this new development, your dust extractor is used even more effectively. The result: clean work on a clean construction site! Operation of the ERIKA leaves no questions unanswered. Clearly designed operating elements are all logically arranged on the front of the machine!

If the ERIKA 70 Ec cannot handle the required cutting height, there is always its ``big sister`` – the ERIKA 85 Ec, ideal for large workpieces with a cutting height of up to 85 mm (3 3/8 in.).

The built-in /Quickstand\\ sets the ERIKA on 4 stable aluminium legs within seconds. Protective rubber stoppers on the feet also prevent slipping or knocking.

Operation of the ERIKA leaves no questions unanswered. Clearly designed operating elements are all logically arranged on the front of the machine!

Thanks to the E-control electronic system and the corresponding MAFELL original saw blade, it is possible to process other materials in addition to wood, such as plastics or aluminium profiles.

Further advantages of the ERIKA 85 Ec: Extremely stable table profile, tilt range from -3° to 48° and lowerable riving knife.

Accessories / Tools

Universal guide fence
with fence extension

Sliding table
maximum cutting length 905 mm (35 5/8 in.)

Supporting leg, adjustable

Extension table
(requires 2 support/mounting rails) to
accommodate routers LO 65 Ec

Adapter
for molding table, to accommodate other makes

Supporting rail
1000 mm (39 3/8 in.)

Clamping device

Telescopic rod
with sheet metal support, 960 mm (37 13/16 in.)

Connecting piece
(for connecting two fence guide extensions)

Sheet metal support

Adjustable stop

TCT saw blade
250 x 1.8/2.8 x 30 mm (9 13/16 in.), AT, 40
teeth, for universal use

Hand Router LO 65 Ec MaxiMAX in

Hand Router

Rip fence/guide with micro adjustment

Collet in delivery scope

Chip collector in delivery scope

Revolving depth control turret in

Multi-purpose guide fence MFA
with angle locking

Fence guide extension
for universal guide fence, 1000 mm (39 3/8 in.)
long

Fence guide extension
for MFA, 1000 mm (39 3/8 in.) long, incl. drop
stop

Router adapter kit

Supporting rail
800 mm (31 1/2 in.)

Parallel guide fence
with micro adjustment

Drop stop

Extension kit with wheels

Chip collecting system Cleanbox
Starter-Set

Chip collecting system Cleanbox
5 pieces

TCT saw blade
250 x 1.8/2.8 x 30 mm (9 13/16 in.), 24 teeth, AT,
for ripping cuts

TCT saw blade
250 x 1.8/2.8 x 30 mm (9 13/16 in.), AT, 60
teeth, for fine cuts

TCT saw blade
250 x 1.8/2.8 x 30 mm (9 13/16 in.), FT/TT, 68
teeth, for plastic and aluminium profiles
