

HW FLAT COUNTERSINKS Z2

R100

- Countersinks are useful tools for boring and fastening. The holes are prepared for subsequent machining operations, especially by widening them to hold the screw heads.
- Use with Art. **R101** and with T.C.T. dowel drills Art. **L103 - L104 - L109 - L110** and with all dowel drills with **4 flutes**.
